

Last updated 01/13/11. The information in this guide is subject to change. The universities may require additional lower division courses beyond those listed or articulated. Please review a current catalog of the campus of your choice and consult with a counselor. The most recent CSU & UC articulation information is available at www.assist.org/.

A Bachelor of Science degree in Nursing may be earned by completing an Associate Degree in Nursing (ADN) at the community college and then enrolling in a baccalaureate degree completion program at a CSU, UC, or independent college or university. Students choosing the RN to BSN option should contact the Nursing Department at the campus for more information prior to applying. There may be special application procedures.

At least 17 CSU campuses offer the ADN to BSN major and are open to CSU-eligible applicants. **Most of these majors are not impacted.** Admission criteria to the CSU include sixty semester units of college-transferable credit with at least thirty of those units meeting CSU GE requirements.

<p>SONOMA STATE UNIVERSITY</p> <p>Required courses:</p> <p>ANAT 1; PHYSIO 1; MICRO 5 or 60 or HLC 55; CHEM 60*; ENGL 1A; SPCH 1A or 60; Critical thinking course; MATH 15</p> <p>Note: *SSU will use CHEM 60 to satisfy GE Area B1 for nursing students only</p>	<p>The RN to BSN two-year upper division option is designed to articulate with community college nursing programs. <u>RN-BSN Admission requirements:</u></p> <ul style="list-style-type: none"> • 60 units of transferable credit: 30 units of nursing classes and 30 units of General Education requirements including Areas A (Speech, English Composition & Critical Thinking) and B4 (Statistics) (Per 2010-11 SSU catalog, applicants may be admitted without having yet completed Critical Thinking and/or Statistics, but must complete them in their first semester at SSU); • 3 semester units of college level chemistry* with a grade of C or better; • Human anatomy & physiology within the past 10 years or direct clinical nursing experience within the last two years; • Current California licensure as an RN. <p>LVN-BSN: The SSU Dept. of Nursing no longer offers an LVN-BSN program. The state mandated "LVN-30 unit option" continues to be available at SSU on a "as space is available basis" (particularly clinical space). Over the past several years such space has not been available and does not seem likely in the near future. LVN's interested in an LVN-BSN program are encouraged to contact the Indiana State University program offered in California through a state approved partnership. The ISU-California program is a distant education program via the internet which can be done from anywhere in California. <p>UNIVERSITY OF SAN FRANCISCO</p> <p>North Bay Regional Campus in Santa Rosa</p>	<p>RN-ADN to MSN CLINICAL NURSE LEADER</p> <p>The RN-MSN accelerated degree program is designed for the registered nurse who holds an Associate's Degree in Nursing and has now decided to pursue graduate nursing education. The program is one that builds upon the student's prior training, provides content and clinical experiences in community health nursing and leadership/management and moves the student directly into graduate nursing education. Although students will enter the program without an earned bachelor's degree, as they progress through the course of study, they will meet the program outcomes of the MSN program. The total curriculum requirement is 46 units.</p> <p><u>Admission Criteria</u> Admission to the program is based on an overall appraisal of the applicant's ability to undertake master's study and of their potential contributions to the discipline of nursing as evidenced by the following:</p> <ul style="list-style-type: none"> • Official transcripts from colleges/universities attended • Grade point average of 3.0 or higher • Two letters of recommendation • Personal statement • Resume • Documentation of professional licensure • TOEFL scores if needed <p style="text-align: center;">For more information, see www.usfca.edu/regions/santarosa.
