Pre-Algebra: You would take this test if:

- Your arithmetic skills need strengthening, or
- You have never taken any algebra courses, or
- You have had one year of algebra, or
- You need to review algebra

Algebra: You would take this test if:

- You have had college preparation algebra and geometry, or
- You are ready for intermediate algebra, or
- You are reviewing intermediate algebra, or
- You have had one year of beginning algebra and geometry, and one year of intermediate algebra, or
- You are ready for transferable level mathematics, or
- You plan to take higher level math classes

College Algebra: You would take this test if:

- You have completed a year of trigonometry or beyond, or
- You are ready for calculus
