

CIS Online

Online Web Training Program at SRJC

The Computer Information Sciences Department at Santa Rosa Junior College offers you the convenience and flexibility of attending classes from your personal computer anywhere in the world.

Working with an experienced, dedicated instructor, students learn new concepts, share ideas, test theories and enjoy all of the advantages of an on-campus certification program, with one important exception — there is no commute!

Our campus was recently ranked #1 for connectivity among Community Colleges in California. Santa Rosa Junior College has a long history of excellence in education — let us bring these vital Web Development skills into your home so you can start learning today.

Look for new classes every semester — check the SRJC website for the most accurate listing of classes at www.santarosa.edu

Here is what you need to do:

1. Apply and Register online - <http://www.santarosa.edu> the "Student Online Services" section contains links to "Apply Online" and "Register."
2. Access our online schedule - <http://www.santarosa.edu> the "Academics" section allows you to select the Semester and Department. These classes are found in the Computer Information Sciences Department.
3. Our fees are \$11.00 per unit for California residents, \$151.00 for out of state students, and \$164.00 for international students. These fees can be paid online and all class materials are available for online ordering.
4. Courses start throughout the semester. If you have questions about our online Web Development program contact lhemeway@santarosa.edu
5. All courses are a part of our extensive Web Development Certification. For further information, visit the web site - http://gracie.santarosa.edu/web_training/
