## *Congratulations SRJC Transfers!*

This issue of Transfer Topics is dedicated to those students who have been accepted for admission and will be attending a four-year college or university in the fall of 2010. Congratulations! It takes careful planning and a lot of hard work to complete the requirements for transfer.

### Important Dates

After admission to a college or university, you will receive information about timelines for submitting your statement of intent to register, sending your final transcript, making a request for housing, reserving orientation sessions, and registration. Be sure to meet all deadlines to ensure your admission and smooth transfer to the university.

### University Orientations

Most universities will be offering orientations to new transfer students in the summer. Do take advantage of this opportunity to learn about the registration process and requirements for your major. Often students who attend an orientation get priority for registration.

### Evaluation of SRJC Courses

Your coursework from Santa Rosa Junior College will be evaluated by the college or university you will be attending. If there are questions or concerns that arise regarding the acceptance of the courses you have taken at SRJC, please know that we will continue to be an advocate for you. Remember that you can use [www.assist.org](http://www.assist.org) to verify course articulation. Be sure to call the Transfer Center (527-4874) if you need assistance. Your continued success is important to us.

### Address Changes

**IMPORTANT:** Notify the university if you change your address after you have submitted your application.

### Immunization Requirements

Did you know that to be admitted to the university, you will need to submit records showing you meet immunization requirements? This is sometimes a last minute surprise for transfer students, and can be very stressful if you a) don't have all of the immunizations the universities require, or b) don't have an official record of your immunizations. Planning ahead for this now will make your transfer process much easier.

Here are some things you can do:

- 1) Learn what the immunization requirements are for your university.
- 2) Collect all of your immunization records
- 3) Obtain any immunizations you didn't receive or for which you don't have records.

SRJC's Student Health Services (Race Building) can help you interpret your immunization records and/or provide you with immunizations you are missing. Call 527-4445 for more information.

### IGETC Certification

If you have completed the IGETC pattern for UC or CSU General Education, be sure to request certification at the time you have your final transcript sent to the destination school. There is a box on the Transcript Request form for you to ask for IGETC certification. (Certification of the CSUGE pattern is done automatically).

*If you have questions about this or other transfer information, see your SRJC counselor.*

## The Transfer Transition

Moving on to the university is an exciting step! It also means a number of changes that you can anticipate and plan for:

- Attend the university's orientation for transfer students. You will get critical information there about the new system you are entering and, often, early registration privileges.
- Consider the logistics of relocation.
  - Start working early on housing arrangements and move as soon as possible.
  - In the meantime, visit the campus a few times and explore the surrounding area.
  - Look at transportation systems - it may be better not to use a car every day.
  - If you have children, find out about local schools and child care resources.
- Take care of financial arrangements.
  - Is there is a branch of your bank near your university? If not, consider a switch.
  - If you have financial aid or scholarships, visit the offices to verify all is in order.
  - If you need to work, inquire about jobs on campus or find something close by.
- Be sure to make use of services that the university provides for transfer students. They can ease your adjustment to a new life.
  - Admissions and Registrar's Offices
  - Transfer, Disabled, Re-entry, Parent, Veteran, and International Student Services
  - Student Housing
  - Financial Aid and Scholarship Offices
- Be prepared for the "residential" nature of universities, especially the UC. You will be far more successful, if you become a part of the academic community there.
  - Join a club, student government, or other student organization.
  - Study on campus as much as possible, especially as part of a study group.
  - Attend lectures, seminars, readings, and other such events.
  - Seek out a professor or graduate assistant who might become a mentor.
  - Look for opportunities to become a research assistant.
- Get ready to be more self-sufficient in your academic planning. There are no "counselors" at the university; instead, you will have a faculty advisor in your major. He or she may not be responsible for making sure you meet other graduation requirements.
  - Carefully read the Evaluation of Transfer Credit that you should receive by the end of your first semester/quarter. Take it to your advisor, if you have questions.
  - Become familiar with the university catalog and become familiar with sections that show upper division courses in your major and all graduation requirements.
  - Read your email and postal mail regularly for communication from the university.
  - The semester/quarter before you are due to graduate, ask to see an evaluator in the Registrar's Office to make sure you are on track to complete all requirements.

SRJC has prepared you well for university academics and has hopefully supported your success. We continue to wish you well as you make the transition to a university. Bon voyage!
