OLDER ADULT PROGRAM, www.santarosa.edu/ncps

SRJC offers a select number of non credit classes designed for elder members of our community as part of our lifelong learning program. Class activities offer seniors a wide range of options depending on their abilities and interests. Classes provide activities to promote physical, cognitive, social and emotional health. Specific topics include exercise/stress reduction, arts & crafts, autobiographical writing, music appreciation, discussion of important current issues, and other topics of special interest to older adults.

Classes are held at senior centers, retirement communities and convalescent hospitals during the fall and spring semesters and the summer session. All classes are open to the public. There are no fees for these classes and on-going registration takes place at the class location. Refer to the previous page for locations. For further information, contact Noncredit Programs and Services at 527-4533.

SE 501: Arts and Crafts

Classes vary according to abilities and interests of students. Activities range from rudimentary crafts to challenging watercolor and pottery instruction.

SE 502: Autobiography

These classes are especially designed for active seniors who wish to maintain and improve their writing skills and use their personal life histories as a focus for their endeavors. The class is also taught online. Go to <http://online.santarosa.edu> for more information.

SE 503: Involved Elder

Involved elder classes provide seniors with activities to stimulate their senses and promote physical well-being. Other classes stimulate the intellect through lectures and discussions. Classes may be for frail elderly or those who are more active.

SE 505: Discussion Group

These classes are designed to enhance the social and intellectual quality of life for active seniors who live mainly independently, and who wish to engage in discussion activities centered around current topics and issues.

SE 507: Exercise & Stress Reduction

These classes are designed to strengthen and enhance muscles and groups of muscles and instill a favorable attitude toward daily physical conditioning. Offered to active as well as frail elders.

SE 510: Music Appreciation

These courses are designed for older adults who wish to deepen their enjoyment of music in a shared group environment. Piano, guitar and other instruments are used to enhance participation.
