---

Within the limitations of the budget, class field trips and other college-sponsored activities requested by instructors or supervising staff, will be approved by the Vice President of the respective component when, in his/her opinion, the educational program can be enriched. All field trips and college-sponsored activities must be for purposes directly related to the curriculum. These purposes are generally defined as educational experiences which cannot be duplicated on campus and are directly related to course content.

Field trips and college-sponsored activities outside of California require Board of Trustees approval.
