

The importance of providing appropriate College facilities is recognized by the Board of Trustees. To assure a comprehensive approach to evaluating, projecting and planning needs, the following factors will be considered:

1. The expanding and changing educational program of the District.
2. The College's role in the community.
3. Plant and site aesthetics.
4. Demographic changes of the District's population.
5. Community planning, zoning and environmental impact.
6. Student, faculty and staff accessibility, safety, welfare and security issues
7. Relationships between new and existing facilities.
8. District financial ability.
9. Cost benefits and economies reflecting true value in relation to expenditures of public funds.

The Superintendent/President is directed to establish such administrative arrangements as may be necessary to assess the facility needs of the District. A variety of resources may be utilized, including the local public utilities; commercial and industrial enterprises; professional consultants; and governmental agencies along with consultants.
