

6.1.4

FACILITIES: EDUCATIONAL SPECIFICATIONS

ADOPT: APRIL 8, 1985

REVISED: DECEMBER 12, 2000

REVISED: MARCH 11, 2008

ED CODE: 81821.5

C.A.C., TITLE 5: 57020-57033

---

To insure that College facilities are designed to enhance the educational program and student services, the Superintendent/President will direct the Vice-President for Administrative Services to provide for the establishment of educational specifications as a guide in the planning and constructing or leasing of facilities.

Educational specifications will be developed in consultation with appropriate Academic Affairs and/or Student Services representatives and shall include the following:

1. Description and justification of educational and student services program(s) to be housed.
2. Information about student needs and special requirements (e.g., disabled access requirements, technical specifications related to a particular program or instructional methodology, etc.).
3. Justification for the type, functional requirements and amount of furniture and equipment required.
4. Consideration of aesthetics, energy conservation, environmental health and safety, security, traffic patterns, community use and the relationship between the facility and the balance of the campus.
