

Adobe **InDesign 1***classroom*
Cyndi Reese • Fall 2009

Sonoma County Promo

Part 1: Sonoma County Text Wrapping

Before you begin, check out the Best of Class samples and see what previous students created for Lab 5 at the bottom of the class website. Complete Exercise 5 on page 68 of *Stepping Out With InDesign*. When you are finished with the exercise, you will have completed a 2-page document. Each page will have a different style of text wrapping applied to a graphic. Feel free to be creative as you work on this lab, as long as you do a rectangular text wrap on a photograph on the first page and a contour wrap on a vector graphic on the second page.

Print both pages of the document.

Checklist for week 5:

- Watch the movie on Adobe history and PostScript using the Week 5 link at the class website
- Print and submit the 2-page document in your folder

An invitation to join NBAUG from Cyndi Reese

Carolyn Massell and I are co-managers of the North Bay Adobe Users Group. We hold 8 meetings a year at the Santa Rosa campus of Santa Rosa Junior College. Membership is free. Adobe is most generous to its user groups, sending the occasional Adobe evangelist to speak to us as well as providing great “swag” to give away. Twice a year we are able to raffle away \$2100 of Adobe software to one of our lucky members in the audience.

If you're interested in joining, visit www.nbaug.com. It will redirect you to our new Adobe Community website. If you're new to the system, you'll be prompted to create an Adobe ID (usually your email). After that, visit our NBAUG website and click on the Join This Group button. You can join other Adobe user groups that interest you throughout the world. There is a great InDesign user group in San Francisco.

Come to our first Fall meeting on Monday, September 28th at 7pm in Newman Auditorium to watch Carolyn Massell talk about our Adobe Community website and its benefits. One lucky attendee will walk away with a \$500 Photoshop plug-in package from onOneSoftware.

The October meeting will feature a panel of presenters (including Cyndi) discussing how to create an accessible website and PDF. Federal law (Section 508) requires that federal agencies' electronic and information technology be accessible to people with disabilities. In November, join us as two industry color management experts discuss color workflows. December's agenda isn't set yet, but that's when we have our big raffle of Adobe software.
